

 **hearthstone**[®]
O U T D O O R

Built for bringing friends together.

Expand The Heart of Your Home.

Good things happen when we come together to celebrate— especially when it involves great friends and a warm fire.

HearthStone Outdoor extends the heart of your home to your backyard. As part of the HearthStone Home family of products, we've been creating warm moments for over 40 years. That's given us an unparalleled understanding of fire—and the natural human inclination to want to gather around it. With HearthStone Outdoor's full line of griddles, fire and barbecue pits, as well as a wood-fired pizza oven, we think we've perfected the "gather round" aspect.

Enjoy the Heart of Your Home--under the stars, with friends, a warm fire, and HearthStone Outdoor.

Genio Pizza Oven

Fire Pit Grills

Outdoor Griddles

Genio

PIZZA OVEN Model 800-40WO15

What is central to every successful gathering? The perfect host, of course. And what makes a more perfect host than being able to consistently deliver wood-fired deliciousness far into the evening?

Whether your menu includes seared meats, perfectly browned breads, roasted vegetables or, of course, the most perfectly crisped and melty pizza, the HearthStone Outdoor Genio pizza oven will deliver.

Counter Top Oven

Genius Design

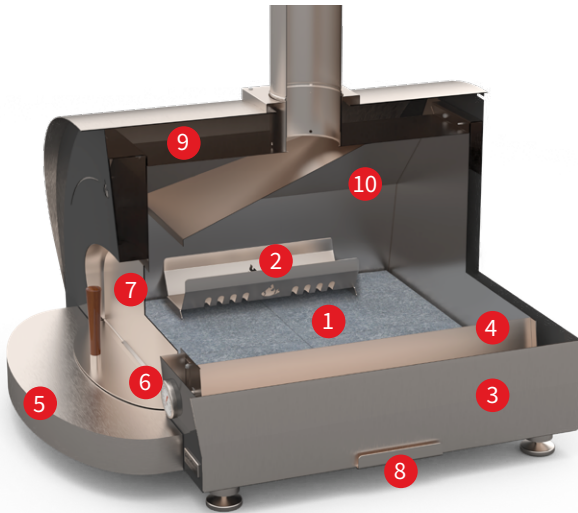

With unique features like a soapstone cooking surface, a front prep shelf, a surface heat thermometer and one-handed front door handle, the Genio will surpass all of your expectations.

Genio

PIZZA OVEN Model 800-40WO15

The Genio is the ultimate premium experience in outdoor ovens. With a thick soapstone floor, the Genio follows a well-established cooking tradition for thousands of years: using the incredible heat retention properties of soapstone for exceptional cooking results —endlessly delighting your guests.

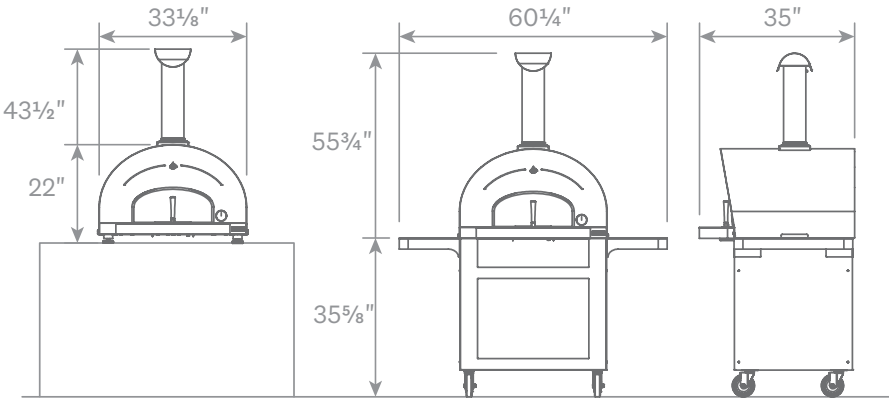

American made quality construction

Features

1. Soapstone cooking surface
 - 4 square feet of cooking space
 - Soapstone stores 3 times more heat than a typical pizza oven brick
 - Soapstone maintains an even heat pie after pie
2. Log rack - elevates the fire for a consistent burn
3. 304 stainless steel outer chassis
 - Rustproof and weather-ready
4. 439 burner grade stainless steel liner
 - Built for a long product life
5. Large front shelf
6. Oven thermometer - located near the cooking surface
7. One-handed removable door frees the second hand for tending the fire or food
8. Hook for storing the door - install on either side
9. Ceramic insulation on all sides for quick heat-up and safer surface temperatures
10. Our GeniusFlow™ oven chamber traps heat and prevents flame spillage

Accessories

PIZZA OVEN

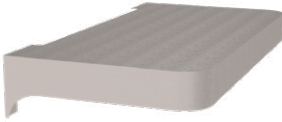

Rolling Base 901-4010

Extend your outdoor kitchen with a rolling base, or wheel the pizza oven wherever the gathering happens.

The black powder coated construction is weather-ready and matches the front panel of the pizza oven. Two storage shelves and locking caster wheels turn your Genio Pizza Oven into a mobile kitchen.

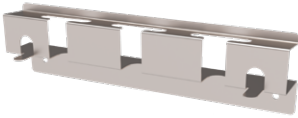

Shown with 2 optional side shelves, tool rack and tool set

Side Shelf 5140-1260

Add optional stainless steel side shelves for more prep space. Sold individually.

Tool Rack 902-0023

Designed for the Pizza Oven with organization in mind, the tool rack attaches to the side of the rolling base or to the ends of the side shelves. It can also be mounted to a wall or built-in counter top.

3-Piece Tool Kit 902-0013

These super light anodized aluminum tools are the finest quality available today. Made in Italy.

Pizza Turner

Oven Brush

Large Pizza Peel

Weather Cover 904-3213

A breathable fabric cover for your pizza oven. The easy-off chimney must be removed to use this cover. Use the cinch cord and buckle straps at each corner to secure the cover in place. The front vent is lined with mesh to allow airflow. Comes in a fabric bag for easy storage.

Denim Apron CL-APRON-BLK

Keep clean while you cook in our full-length apron. The wrinkle-resistant denim-style fabric blends performance with style.

Leather Gloves 99-99031

Our durable full size leather safety gloves are thick and protective, with a soft inner lining.

Infrared Thermometer 7200-540

The infrared thermometer gives you an accurate temperature of the cooking surfaces or the food you're cooking.

Fire Pit Grills

Bring the fire of the night sky down into your own backyard with our family of fire pits. Part of the unique sophistication of the HearthStone Outdoor fire pits is the optional cooking rings, allowing either soapstone, griddle or grill cooking options.

Meteor Fire Pit Grill

Zenith Fire Pit Grill

Cosmo Fire Pit

Gather Around a Memory

Constructed of the finest European Cast iron, HearthStone Outdoor fire pits are meant to last for a lifetime of memories. So, invite the neighborhood over and start enjoying the moments.

Zenith

FIRE PIT GRILL Model 811-2510

Our Zenith Pit Grill is the perfect height for standing, socializing and cooking. The 38" round Zenith is easy to customize with optional cooking rings, transforming your fire pit into an amazing grill, as well as a showpiece for your gatherings!

Shown: Zenith fire pit grill with cooking ring.
See the customize page for details about cooking rings.
Tools and tool hooks not included.

Fire pit cover

The included stainless steel cover will keep the weather out in any season.

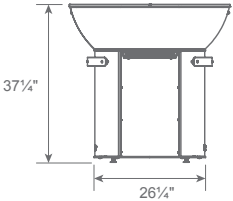

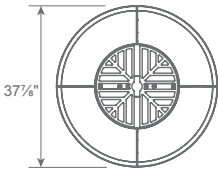

Harness The Fire

Use the Zenith to prepare a meal for a crowd! Choose from grill, griddle or soapstone rings for true versatility in your meal prep! Arrange the fire and coals to control the temp of your grill. And enjoy the glow of the fire under the stars as you prepare a meal to remember. Designed to last a lifetime, the Zenith will continue to delight for years.

The Zenith includes the fire pit, fire grates, Zenith base, and stainless steel cover. Add a cooking ring to complete your fire pit grill.

Dimensions

Air Flow

The fire is fed from below and around the side of the bowl. Air flows up through the fire grate to keep your fire burning strong.

Meteor

FIRE PIT GRILL Model 811-1510

The Meteor Fire Pit Grill is the perfect for kicking back and relaxing with friends. The 38" round Meteor sits on a low, sturdy base and will easily be the heart of your backyard. The wide, open top provides 360-degree view of the fire.

Shown: Meteor fire pit grill with cooking ring and soapstone grill stones. See the customize page for details about cooking rings.

Fire pit cover

The standard stainless steel cover will keep the weather out in any season.

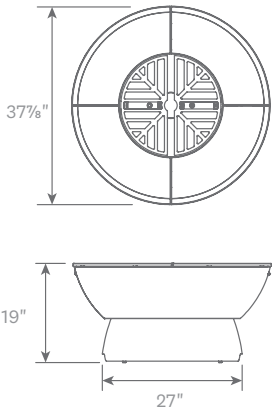

Easy to Use and Clean

The Meteor lets everyone gather around the pit and help cook a part of the meal, while relaxing! Choose from grill, griddle or soapstone rings for true versatility in wood-fire cooking! The Meteor's two-part bowl construction is made of the finest European cast iron. Thick and weighing 300 pounds, the Meteor will continue to glow after many years of gatherings and celebrations.

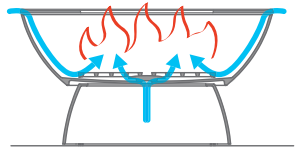

The Meteor includes the fire pit, fire grates, Meteor base, and stainless steel cover. Add a cooking ring to complete your fire pit grill.

Take The Party Outside

HearthStone Outdoor Griddles are made to keep pace with your party in any weather. Our fully enameled cast iron griddle is built for a lifetime of performance, no matter the season. The gas burners are completely enclosed and shielded from rain and moisture, and the handy, attached stainless steel cover adds an extra layer of protection to flawlessly extend the life of your outdoor griddle.

Brabura 40

GRIDDLE Model 830-3852

The HearthStone 40 inch outdoor griddle brings all the neighbors to your yard—for a celebration! With 648 square inches of surface cooking area, the only limit to your menu is your imagination.

Built-in Griddle

The griddle can be built in to any non-combustible outdoor kitchen. A Build-in Liner is available for installation into combustible counters. See the griddle accessories.

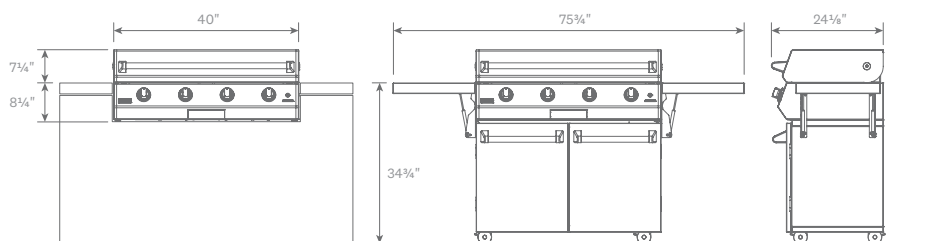

Enameled Cast Iron Griddle

The enameled cast iron griddle has incredible heat retention properties that sears foods perfectly, distributes heat for even cooking. The enameled surface is durable, non-stick, and cleans up easily.

Our outdoor griddles are exceptionally well designed, with features including independent cooking zones, LED knobs which indicate when a burner is lit, a convenient grease drain, and full stainless steel construction.
